Dearest Janusz-Korczak Schule and C Bernroth

How is everybody and their families doing in life? Phumlani and his family are doing good. He believes and hope for the same from you all.

This year Phumlani is doing grade 6c and his class-teacher is Mr. Nzimande and he teaches the class IsiZulu. Phumlani likes his class-teacher very much. Phumlani's favourite subject is Mathematics Mr. Ngcobo teaches them. He likes going to school for his academic process he also attending the Siyabonga centre for furthering his education.

In about a few week time they had school holidays and he didn't visit anywhere as it was only 2week thing. He misses his relatives though in Umtata as he only last seen them in December time when it was Christmas holidays.

Before these holidays they wrote some tests which were not a success. He was so embarrassed but he hopes things will work out for him with the next term which is next month maybe soon they will start with their tests for the end of the second.

Phumlani wishes you dear families of the school all the best and good health as without you he is really nothing.

Much love

Thandi and Phumlani
