*Date: 04 August 2023*

*Dearest Bernroth and Schule*

*How are you and families doing for life? Phumlani is doing great he hopes the same from you all.*

*Thank you very much for the letter that you dear wrote to him. It is amazing it only came now in August we believe there was a huge delay at the post office. It doesn't matter because at the end it reaches the destination 😊. Yes, there is Easter holidays here too and also about the death and resulation of Jesus and crucified in the cross things like that. Some people uses this time as special time celebrating their relatives pass on, getting married, lobola ceremonies and more of traditional ceremonies depending which one is on the day.*

*At school he couldn't make it with his end of the second term tests he hopes that thing will work out though as there are two more terms to go including the final test which is more important as it is the decider whether the pupil is proceed to the next grade. His problem subjects are National Science and Social Science it is very hard for him with these two subjects. He hopes for the best though.*

*Much love*

*Thandi and Phumlani*
